*Are you tired of wondering how to invest your money?*

- Stock market is too volatile
- Certificate Deposits are too low
- Real estate is too labor-intensive

If you're interested in making money,  
Why not buy Real Estate Mortgages?

- Earn at least 10 % interest, with real estate as collateral
- A title insurance policy will be issued with no liens on property

As an IDS parent, mention this ad and we will donate a portion of the commission from each transaction, to IDS!
